

The Sage Oak of Denton Move-In Checklist

Thank you for choosing Sage Oak of Denton and putting the needs of you or a loved one first. Follow this guide after you've made your deposit and undergone a needs assessment to make your move-in day easier.

1. Gather Important Documents:

ID's, insurance cards, power of attorney documents, Do Not Resuscitate, Advance Directives, and Long-Term Care Insurance info if applicable.

2. Update Important Contacts

Send over contact information for current physicians overseeing resident care.

3. Document Your Loved One

Take a photo of your loved one and share it. Document their journey.

4. Finalize the lease date

Select a date to complete move-in paperwork, including the lease agreement. It's easier to complete this process before the move-in date.

5. Finalize With Movers

Coordinate the move-in with a moving company or medical equipment provider. Sage Oak has both preferred moving and medical equipment providers. Let us know if you would like this info.

6. Coordinate Transportation

Depending on resident mobility and level of care, schedule appropriate transportation services for the day of move-in. Sage Oak recommends morning time transportation when possible. We can provide a list of preferred transportation companies depending on the residents' needs and preferences.

7. Organize For Day One

Ensure your loved one has the essentials for their first day in their new home. We suggest bringing personal items together such as toiletries, grooming items, towels, two sets of bed linens, clothing appropriate for the season, proper footwear, furniture, medications, and any comfort snacks. We will supply non-prescription incontinence supplies and toilet paper. When choosing furniture at this stage of life, the minimalist approach is often best.

8. Feel Free to Ask Questions

We know moving can be a stressful time. We are here to help. Allow Sage Oak to aid and assist you during this process. Contact us at (940) 331-0600 or dentoninfo@thesageoak.com.
